Introduction

This guide has been compiled to help families identify suppliers of specialist equipment. It is **not designed to replace any advice you receive from your/your child's medical team** about equipment. It is important to follow all advice that is provided by your/your child's medical team regarding equipment.

This guide aims to provide information on alternative equipment suppliers. Please note that this is not an exhaustive list but may serve as a starting point in the search for specialist equipment. Inclusion in this guide does not reflect recommendations for particular companies or models of equipment and **SOFT UK does not endorse any of these companies. It is recommended that you get advice from your/your child's medical team before purchasing products and discuss the suitability with them.**

Please be aware that many of these products may have additional costs in terms of delivery, maintenance, insurance etc. These should be discussed with the suppliers when obtaining quotes, particularly if you are hoping to secure funding or grants to help with the cost.

British Healthcare Trades Association

A number of the suppliers listed are members of the British Healthcare Trades Association, and are committed to abide by its Code of Practice. This means that they are required to comply with all relevant legislation, provide products which are of satisfactory quality and fit for purpose, respect confidentiality and only provide honest and accurate information (British Healthcare Trades Association n.d.).

VAT Relief

If somebody is disabled or has a long-term illness, VAT relief is available on items which are specifically designed for or adapted for disabled users. Eligible equipment is determined by the supplier or manufacturer.

VAT relief is not means-tested. To qualify, someone must have “a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out everyday activities” (HM Revenue and Customs 2014, updated 2020). If you consider this to be the case, you will need to complete an eligibility declaration which can be provided by the supplier. Alternatively, a form can be downloaded here: <https://www.gov.uk/government/publications/vat-reliefs-for-disabled-people-eligibility-declaration-by-a-disabled-person>

If you know of other specialist equipment or providers which may be helpful for families affected by trisomy 13 or 18, please let me know through the feedback link here: <https://forms.gle/XAJFxs4x221Yuy4N7>

Adapted Buggies

Company Name*	URL	Approximate Price Range**	Delivery Time	Contact Details	Notes
Baffin	https://www.baffin.co.uk/	Not specified	Not specified	Email: office@baffin.co.uk Telephone: 01788 892 056 or 07496 665772	Three buggies available. Enquire for more information.
